We can supply gas to customers with annual usage up to 292,780kWh.

Your supply region ID number can be found in the supply number printed on your latest electricity bill. In this example of a supply number, the **XX** represents your Region ID number.

Your meter profile is shown on your current electricity bill as part of the supply number.

00	000	000	000
XX	0000	0000	000

Please note that to enable you to compare our prices with the amount you are paying to your existing supplier (as shown on your latest bill), the above figures are exclusive of VAT.
